

# Time to replace your tired rechargeable batteries!

TeachLogic  
FOR SOUND LEARNING

## Back to School

means fresh, sparkling classrooms ready for invigorating instruction. However, the rechargeable batteries for your wireless microphone or other battery equipment may have been overlooked. Nothing is more frustrating than having inoperative equipment to dampen your enthusiasm. Be sure to check the condition of your batteries before students arrive.

If fresh batteries are required, TeachLogic recommends new Duracell rechargeable NiMH batteries. They have the highest output capacity, longest service life, and have proven to be the most trouble-free. With TeachLogic's established confidence in Duracell rechargeable batteries, we are offering a one (1) year unconditional warranty when purchased from us.

TeachLogic is offering a **Back to School** Special

of **\$18<sup>49</sup>** *per pair!*  
includes free shipping and our own one year replacement warranty good through Sept. 30, 2009

Model # BR-2AA for two "AA" rechargeable Duracell batteries. **Not all batteries are equal.** Our batteries have the maximum capacity, 2650 mAh, for additional daily service, extended life and hundreds of recharges.

We accept Visa, Mastercard, American Express, check or school purchase order.
